The proceeds of the Placement of New Shares will be employed, *inter alia*, to fund the establishment and launch of a new substantive in-house developed product in mid 2016 and to pursue synergistic acquisitions during the next 12 months.

## SALIENT FEATURES

---

The definitions and interpretations commencing on page 8 apply to these salient features.

### 1. INTRODUCTION

Trellidor has a proven track record of over 35 years in the physical barrier security sector. Over that time it has established one of the most powerful brands in South Africa – “*Trellidor*” has become the most recognised name for barrier security. Shares of Trellidor have now been granted a listing on the main board of the JSE from 28 October 2015 onwards.

### 2. RATIONALE FOR LISTING

The Company's rationale for the Listing is:

- 2.1. to provide the Company with access to capital in order to grow its business both organically and by way of future acquisitions;
- 2.2. to allow the Company to use listed scrip to fund future acquisitions;
- 2.3. to give its franchisees and the general public an opportunity to acquire an equity stake in the Company and thereby share in its potential success in future;
- 2.4. to provide Shareholders with a liquid, tradeable asset within a regulated environment, with a market-determined share price;
- 2.5. to raise the Company's public profile and reflect its position as a leader in the physical barrier security sector; and
- 2.6. to retain, attract and incentivise key staff and align their interests with those of Shareholders through the allocation of options for listed Shares.

### 3. BRIEF OVERVIEW OF TRELLIDOR

- 3.1. The Company has designed and manufactured steel security barriers since 1976 and today “*Trellidor*” is one of the most trusted names in barrier security in South Africa.
- 3.2. In addition to securing hundreds of thousands of homes and small businesses, the Company has provided barrier security products solutions to large retail groups, such as Pick n Pay, Shoprite Group, Checkers/Hyper, Makro, Mr Price, JD Group and Relyant Retail, as well as international groups, such as Sainsburys and Tesco.
- 3.3. The business is represented in 23 countries worldwide.
- 3.4. The Company employs distributors in 17 African countries. Its subsidiary, Trellidor Ghana, operates an assembly plant in Ghana and is well-positioned to service West Africa.
- 3.5. The Company is well-positioned to benefit from the following:
  - 3.5.1. valuable brand and quality products;
  - 3.5.2. very strong market position in South Africa;
  - 3.5.3. strong cash-flow generation and high-margin business;
  - 3.5.4. appropriate range of premium, custom-made barrier security products (staying clear of the mass-produced “DIY” sector);
  - 3.5.5. additional manufacturing capacity in place;
  - 3.5.6. national franchise network with an unique capacity to design, measure and install;
  - 3.5.7. growth and profitability underpinned by growing affluence and crime levels in Africa as urbanisation trends intensify; and
  - 3.5.8. limited risk of important substitution in the custom made security barrier sector.
- 3.6. Please refer to paragraph 2.1 of the Pre-listing Statement for a more detailed overview of the Company.

### 4. PROSPECTS

- 4.1. Trellidor is the leading manufacturer of custom made security barriers in South Africa and Africa. The business distributes products through a skilled franchise network of 72 in South Africa with a further 17 franchisees in Africa and further representation in the UK, Israel, Europe and Australia. Trellidor is well placed to service the growth in the middle class in South Africa and Africa.
- 4.2. Trellidor offers a range of security barriers aimed primarily at residential, office and retail premises. The range of products is largely developed in house and continually improved to meet the needs of its customer base.
- 4.3. In recent years the distribution network has been substantially increased to provide a platform to grow the business. Supporting this capacity, Trellidor has introduced new security barrier products to its portfolio and enjoyed growth in a relatively flat market.

- 4.4. Trellidor sees the opportunity to accelerate growth by the introduction of further products, both developed in house and through acquisitions. Value add to acquisition targets is possible through offering a national and African distribution network, endorsement of the leading brand in the market, as well as possible manufacturing synergies in Trellidor's modern manufacturing facility in Durban.
- 4.5. All Trellidor's products are custom made to order at the company's modern manufacturing facility in Durban. Significant capacity exists in certain lines to increase production without significant capital expenditure required.
- 4.6. Trellidor is a highly cash generative and high margin manufacturer, and continued focus on costs and margins is a core strategy, with growth providing the opportunity for operational leveraging.
- 4.7. A targeted acquisition strategy, seeking regionally strong businesses with a quality product offering, where Trellidor can add value through its distribution network and brand, and possibly also manufacture, is to be implemented with capital raised, enhanced by the ability to raise loan finance, due to the low current gearing on the Balance Sheet.
- 4.8. Trellidor is driven by an experienced and motivated management team and is committed to growing the business and shareholder returns. It will drive growth through both variable and share incentive schemes to key senior individuals. Trellidor is committed to remaining the leading barrier security brand in Africa.

## 5. PRIVATE PLACEMENT

- 5.1. The Company will, in conjunction with the Listing, undertake the Private Placement by way of an offer to Invited Investors to acquire and/or subscribe for Private Placement Shares in the Company at the Placement Price (assumed, for purposes of this Pre-listing Statement, to be the Indicative Price of R6.25 per Private Placement Share). Such placement is to be implemented by:
  - 5.1.1. the Company placing up to approximately 45.2 million Shares held by SAIOL, Newgen Trust and other existing Shareholders with Invited Investors for an aggregate amount of approximately R282.6 million (based on the Indicative Price); and
  - 5.1.2. the Company issuing up to approximately 8 000 000 new Shares to Invited Investors, thereby raising approximately R50 million for the Company (based on the Indicative Price).
- 5.2. The Private Placement shall take the form of a bookbuild.
- 5.3. Only persons who fall within any of the categories envisaged in section 96(1)(a) of the Companies Act or who purchase or subscribe for Private Placement Shares, the acquisition cost of which is not less than R1 000 000 per single addressee acting as principal (as contemplated in section 96(1)(b) of the Companies Act), are entitled to participate in the Private Placement.
- 5.4. **The Listing is conditional on (i) an amount of not less than R212.4 million being raised for existing Shareholders in terms of the Placement of Existing Shares at a price of not less than R6.00 per Share, (ii) an amount of not less than R50 million being raised for the Company in terms of the Placement of New Shares at a price of not less than R6.00 per Share and (iii) the Company meeting the spread requirements of the JSE. In addition, should any of these Conditions Precedent fail, the Private Placement and any acceptance thereof shall not be of any force or effect and no person shall have any claim whatsoever against the Company or any other person as a result of the failure of the conditions.**

## 6. DISTRIBUTION

- 6.1. As at the Last Practicable Date, SAIOL and Newgen Trust, between them, held 76.1% of the Company's issued share capital, as set out in the table in paragraph 10.2.1 of the Pre-listing Statement. Assuming the placement of 53.2 million Private Placement Shares, they will, following the Private Placement and prior to the Distribution, hold 36.6% of the Company's issued share capital.
- 6.2. In order to improve liquidity in the trading of the Company's Shares, SAIOL and Newgen Trust will on the Listing Date, distribute all Shares held by those entities to their underlying shareholders (in the case of SAIOL) and to their beneficiaries (in the case of Newgen Trust), so as to ensure that the Company complies with the public shareholder spread requirements under the JSE Listings Requirements. The above distribution by SAIOL will form part of a distribution of shares and cash by SAIOL to its shareholders pursuant to its winding-up.

## 7. LISTING ON JSE

- 7.1. The JSE has granted the Company a listing of all its issued ordinary Shares on the JSE main board under the abbreviated name "Trellidor", share code "TRL" and ISIN ZAE000209342 with effect from the commencement of trade on 28 October 2015, subject to the Company having satisfied the JSE Listings Requirements regarding the spread of public shareholders. The Company will be listed in the "Building Material & Fixtures" sector.
- 7.2. Shareholders are advised that their Shares may only be traded on the JSE in dematerialised form. Shareholders who wish to trade their Shares following the Listing will first need to dematerialise their Shares into an account held at a suitable service provider. This can be either one of the CSDPs that offers a trading service or a JSE-registered Broker. The process takes a few days, depending on the volumes of certificates to be authenticated. While such Shares are undergoing dematerialisation, the Shareholder will be unable to trade them.
- 7.3. Each existing Shareholder wishing to trade his Shares on the JSE following the Listing, should instruct his Broker or CSDP to liaise with the Transfer Secretaries, in order to arrange for his current Certificated Shares to be replaced by a statement of holdings to be dematerialised and credited to his account. This statement of holdings must be surrendered to the Shareholder's Broker or CSDP, who will send those documents to the Transfer Secretaries to dematerialise the Shares in question. The Transfer Secretaries can be contacted through their call-centre on 086 1100 634 (or +27 11 370 5000 if telephoning from outside South Africa) on every business day between 8:30 and 16:00.

## 8. ACTION REQUIRED

Applications by Invited Investors for Private Placement Shares must be made in accordance with the procedures and terms detailed in **Annexure 14** of this Pre-listing Statement and by completing an Application Form, a specimen of which accompanies this Pre-listing Statement. Application Forms will be made available to Invited Investors.
- 8.2. Applications for Private Placement Shares can only be made for Dematerialised Shares and must be submitted through a CSDP or Broker in accordance with the Custody Agreement governing the relationship between the applicant and the CSDP or Broker by the cut-off time stipulated by the CSDP or Broker.
- 8.3. If you are in any doubt as to what action to take, you should consult your Broker, attorney or other professional advisor immediately.
- 8.4. Applications per Invited Investor in terms of the Private Placement must be for an amount of not less than R1 000 000, unless such Invited Investor falls within any of the categories envisaged in section 96(1)(a) of the Companies Act.

**PRE-LISTING STATEMENT**

---

**1. INTRODUCTION**

- 1.1. Trellidor has a proven track record of over 35 years in the physical barrier security sector. Over that time it has established one of the most powerful brands in South Africa – “Trellidor” has become the most recognised name in barrier security. Shares of Trellidor have now been granted a listing on the main board of the JSE from 28 October 2015 onwards.
- 1.2. Trellidor was converted from a private company to a public company during September 2015, in anticipation of the Listing.
- 1.3. This Pre-listing Statement aims to provide Shareholders and investors with information regarding the Company and its planned Listing on the JSE's main board and to set out the salient details of the Private Placement, as well as the procedure to be followed by Invited Investors who wish to participate therein.

**2. RATIONALE FOR LISTING**

The Company's rationale for the Listing and Private Placement is:

- 2.1. to provide the Company with access to capital in order to grow its business both organically and by way of future acquisitions;
- 2.2. to allow the Company to use listed scrip to fund future acquisitions;
- 2.3. to give its franchisees and the general public an opportunity to acquire an equity stake in the Company and thereby share in its potential success in future;
- 2.4. to provide Shareholders with a liquid, tradeable asset within a regulated environment, with a market-determined share price;
- 2.5. to raise the Company's public profile and reflect its position as a leader in the physical barrier security sector; and
- 2.6. to retain, attract and incentivise key staff and align their interests with those of Shareholders through the allocation of options for listed Shares.

**3. OVERVIEW OF TRELLIDOR**

**3.1. Introduction**

- 3.1.1. The Company has designed and manufactured steel security barriers since 1976 and today “Trellidor” is one of the most trusted names in barrier security in South Africa.
- 3.1.2. In addition to securing hundreds of thousands of homes and small businesses, the Company has provided barrier security products solutions to large retail groups, such as Pick n Pay, Shoprite Group, Checkers/Hyper, Makro, Mr Price, JD Group and Relyant Retail, as well as international groups, such as Sainsburys and Tesco.

### 3.2. Expansion

- 3.2.1. Trellidor began as a small business based in Durban, South Africa. As the business grew, branches were opened in Johannesburg, Pretoria and Cape Town. In order to maintain high levels of service and reach all corners of South Africa, a wide network of dedicated franchisees has been established. Today this network comprises 72 South African franchisees and continues to expand.
- 3.2.2. The Company is the only player in the market with a national distribution network, which differentiates it from competitors, who are predominantly focused on the main urban centres in South Africa.
- 3.2.3. The Company's export division took off in the mid 1980's with the establishment of a distributorship in Israel. The business has continued to expand over the years and is now represented in 23 countries worldwide.
- 3.2.4. The Company employs distributors in 17 African countries. Its subsidiary, Trellidor Ghana, operates an assembly plant in Ghana and is well-positioned to service West Africa.

### 3.3. Product quality and certification

- 3.3.1. The Company is a leader in security barrier research and development, with over 35 years of experience in this field. Its research and development team has stayed in step with the challenging South African market, continuously improving the product offering as new technology and materials become available.
- 3.3.2. The Company's ongoing research is enhanced by detailed analysis of burglary statistics, for example the methods used to gain entry to properties and the tools used by criminals, as well as research into international trends.
- 3.3.3. The "*Trellidor*" brand is built on high quality trademarked products, which enjoy international certification, and includes several patented locking devices. In this regard –

- 3.3.4. Awareness of the "*Trellidor*" brand is very high in South Africa, where it is generic for sliding door security, while there is growing awareness of the brand in Africa, as a result of the Company's sustained expansion strategy. Due to the Company's strong brand, it commands a premium on pricing for its high-quality products.
- 3.3.5. In the residential market, the Company's security solutions include door, window, patio, safe zone and estate barrier products, while its product offering for commercial clients also includes additional retail and office barriers. All its products are custom-manufactured security barrier solutions.
- 3.3.6. In addition to its traditional offering, the Company's products now also include "*Rollerstyle*", a high-end automated roller shutter, "*Clear Guard*", a strong "lifestyle" security barrier made from aluminium and stainless steel mesh, that is "open" when closed allowing uninterrupted views and airflow whilst being an effective security barrier (this product is unique to Trellidor in Africa), as well as polycarbonate bars, a newly developed and released product for windows that provides an unobtrusive, yet effective security barrier and which is targeted at gated estates, in particular. A further substantive "lifestyle" security barrier is under development, with its release targeted for the middle of 2016, and which will target gated estates and suburban properties.

### 3.4. The market

- 3.4.1. In the residential market, the Company is focused on servicing customers in the LSM 6 bracket and above. In the commercial sector, the Company is focused primarily on office and professional services properties and on light retail businesses.

- 3.4.3. Geographically, the Company's focus currently remains South Africa and Africa, but it has exposure in Israel, the United Kingdom and Australia.
- 3.4.4. While there are no formal statistics available, the size of the South African custom made barrier security market is estimated to be around 300 000 units and R900 million per annum. The Company estimates that it has approximately 35% market share in the main urban centres in South Africa, while it enjoys an estimated market share of approximately 50% in outlying areas of the country. A targeted acquisition strategy, seeking regional strong businesses with a quality product offering, where Trellidor can add value through its distribution network and brand, and possibly also manufacture, is to be implemented with capital raised, enhanced by the ability to raise loan finance, due to the low current gearing on the Balance Sheet.
- 4.8. Trellidor is driven by an experienced and motivated management team and is committed to growing the business and shareholder returns. #### COMMENTARY

##### 1. Nature of business and the year in review

Trellidor Holdings Limited (formerly Trellcor Holdings Proprietary Limited) ("Trellidor") is the holding company of various operating subsidiaries engaged in the manufacture and sale of Trellidor barrier security products in South Africa and Africa and the owning and letting of the main operating premises of Trellidor. Trellidor has been careful to maintain its focus in the custom designed, manufactured and installed barrier security market.

Trellidor has produced commendable results for the year ended 30 June 2015. Trellidor has shown growth in profits notwithstanding a month long national metal workers strike in July 2014, the first month of the 2015 financial year. This anticipated industrial action saw the group focus on sales, production and exports to Africa during the last quarter of the financial year 2014. The strategy of managing costs and improving margins during the 2015 financial year has enabled the group to generate an 8% increase in profits notwithstanding the strike and many African economies being subdued by the impact of commodity prices, plunging exchange rates and shortage of foreign exchange.

At year-end, Trellidor had 72 franchises, offering a national distribution network throughout South Africa, 17 distributors in Africa and 360 direct employees at its head office and manufacturing site in Durban. To complement Trellidor's well known product range and newly launched products in recent years, Trellidor launched a further new product, Trellidor Polycarbonate Bar during the financial year, which has been well received in the market.

##### 2. Financial results

The operating results and the state of affairs of the group are fully set out in the consolidated statement of financial position, consolidated statement of profit and loss and other comprehensive income, consolidated statement of changes in equity, consolidated statement of cash flows and notes thereto.

The group has control of an investee when it has power over the investee; it is exposed to or has rights to variable returns from involvement with the investee; and it has the ability to use its power over the investee to affect the amount of its returns.

The results of subsidiaries are included in the group annual financial statements from the effective date of acquisition to the effective date of disposal.

Adjustments are made when necessary to the group annual financial statements of subsidiaries to bring their accounting policies in line with those of the group.

All intragroup transactions, balances, income and expenses are eliminated in full on consolidation.

Non-controlling interests in the net assets of consolidated subsidiaries are identified and recognised separately from the group's interest therein within equity. Losses of subsidiaries attributable to non-controlling interests are allocated to the non-controlling interest even if this results in a debit balance being recognised for the non-controlling interest.

Transactions which result in changes in ownership levels, where the group has control of the subsidiary both before and after the transaction are regarded as equity transactions and are recognised directly in the statement of changes in equity. The difference between the fair value of consideration paid or received and the movement in non-controlling interest for such transactions is recognised in equity attributable to the owners of the parent.

Where a subsidiary is disposed of and a non-controlling shareholding is retained, the remaining investment is measured to fair value with the adjustment to fair value recognised in profit or loss as part of the gain or loss on disposal of the controlling interest.

#### 1.2 Significant judgements and sources of estimation uncertainty

In preparing the group annual financial statements, management is required to make estimates and assumptions that affect the amounts represented in the group annual financial statements and related disclosures. Use of available information and the application of judgement is inherent in the formation of estimates. Actual results in the future could differ from these estimates which may be material to the group annual financial statements. Significant judgements include:

##### **Impairment of financial assets at amortised cost**

The group assesses its trade receivables and loans and receivables for impairment at the end of each reporting period. In determining whether an impairment loss should be recorded in profit or loss, the group makes judgements as to whether there is observable data indicating a measurable decrease in the estimated future cash flows from a financial asset.

The impairment of trade receivables and loans and receivables is determined by management based on historical information about the credit quality of the debt.

##### **Impairment of inventory**

Management have made estimates of the selling price and direct cost to sell on certain inventory items. The write down is included in the operating profit note 24, using an allowance account.

##### **Fair value estimation**

The fair value of financial instruments that are not traded in an active market is determined by using valuation techniques. The group uses a variety of methods and makes assumptions that are based on market conditions existing at the end of each reporting period. Quoted market prices for similar instruments are used for long-term debt. Other techniques, such as estimated discounted cash flows, are used to determine fair value for the remaining financial instruments. The fair value of interest rate swaps is calculated as the present value of the estimated future cash flows. The fair value of forward foreign exchange contracts is determined using quoted forward exchange rates at the end of each reporting period.

The carrying value less impairment provision of short-term trade receivables and cash and cash equivalents are assumed to approximate their fair values. The fair value of short term trade payables is assumed to approximate their fair value. The fair value of financial liabilities for disclosure purposes is estimated by discounting the future contractual cash flows at the current market interest rate that is available to the group for similar financial instruments.

### **Impairment of non-financial assets**

The recoverable amounts of cash generating units and individual assets have been determined based on the higher of value-in-use calculations and fair values less costs to sell. These calculations require the use of estimates and assumptions.

The group reviews and tests the carrying value of assets when events or changes in circumstances suggest that the carrying amount may not be recoverable. In addition, goodwill is tested on an annual basis for impairment. Assets are grouped at the lowest level for which identifiable cash flows are largely independent of cash flows of other assets and liabilities. If there are indications that impairment may have occurred, estimates are prepared of expected future cash flows for each group of assets. Expected future cash flows used to determine the value in use of goodwill and tangible assets are inherently uncertain and could materially change over time. They are significantly affected by a number of factors including production estimates, supply and demand, together with economic factors such as exchange rates, inflation and interest rates.

### **Provisions**

Provisions are estimated by management based on the information available. Additional disclosure of these estimate of provisions are included in the Provisions note 18.

### **Operating lease commitments**

The group has entered into commercial property leases for the premises they occupy. The directors have determined, based on all available information, that the lessor retains the significant risks and rewards of ownership of these properties and, consequently, the property leases have been accounted for as operating leases.

### **Taxation**

Judgement is required in determining the provision for income taxes due to the complexity of legislation. There are many transactions and calculations for which the ultimate tax determination is uncertain during the ordinary course of business. The group recognises liabilities for anticipated tax audit issues based on estimates of whether additional taxes will be due. Where the final tax outcome of these matters is different from the amounts that were initially recorded, such differences will impact the income tax and deferred tax provisions in the period in which such determination is made.

The group recognises the net future tax benefit related to deferred income tax assets to the extent that it is probable that the deductible temporary differences will reverse in the foreseeable future. Assessing the recoverability of deferred income tax assets requires the group to make significant estimates related to expectations of future taxable income. Estimates of future taxable income are based on forecast cash flows from operations and the application of existing tax laws in each jurisdiction. To the extent that future cash flows and taxable income differ significantly from estimates, the ability of the group to realise the net deferred tax assets recorded at the end of the reporting period could be impacted.

### **Useful lives of intangible assets**

The best estimate of the useful life of intangible assets is linked to the period over which the group expects economic inflows from the use of the patents and trademarks. The useful life is never longer than the legal limit of the patent and trademark.

### **Useful lives and residual value of depreciable assets**

The group assigns useful lives and residual values to property, plant and equipment based on periodic studies of actual asset lives and the intended use for those assets. Changes in circumstances such as technological advances, prospective economic utilisation and physical condition of the assets concerned could result in the actual useful lives or residual values differing from initial estimates. Where the group determines that the useful life of property, plant and equipment should be shortened or the residual value reduced, it depreciates the net book value in excess of the residual value over the revised remaining useful life, thereby increasing depreciation expense.

## **1.3 Property, plant and equipment**

Property, plant and equipment are tangible assets which the group holds for its own use and which are expected to be used for more than one year.

An item of property, plant and equipment is recognised as an asset when it is probable that future economic benefits associated with the item will flow to the company, and the cost of the item can be measured reliably.

Property, plant and equipment is initially measured at cost. Cost includes all of the expenditure which is directly attributable to the acquisition or construction of the asset, including the capitalisation of borrowing costs on qualifying assets and adjustments in respect of hedge accounting, where appropriate.

Costs incurred to add an improvement to the current condition of the building are capitalised as assets under construction. Once the construction is complete the costs are transferred to the appropriate category of property, plant and equipment and depreciated when the asset becomes available for use.

Expenditure incurred subsequently for major services, additions to or replacements of parts of property, plant and equipment are capitalised if it is probable that future economic benefits associated with the expenditure will flow to the group and the cost can be measured reliably. Day to day servicing costs are included in profit or loss in the year in which they are incurred.

Property, plant and equipment is subsequently measured at cost less accumulated depreciation and any accumulated impairment losses, except for land which is stated at cost less any accumulated impairment losses.

Depreciation of an asset commences when the asset is available for use as intended by management. Depreciation is charged to write off the asset's carrying amount over its estimated useful life to its estimated residual value, using a method that best reflects the pattern in which the asset's economic benefits are consumed by the group. Depreciation is not charged to an asset if its estimated residual value exceeds or is equal to its carrying amount. Depreciation of an asset ceases at the earlier of the date that the asset is classified as held for sale or derecognised.

The residual value, useful life and depreciation method of each asset is reviewed at the end of each reporting year. If the expectations differ from previous estimates, the change is accounted for prospectively as a change in accounting estimate.

Each part of an item of property, plant and equipment with a cost that is significant in relation to the total cost of the item is depreciated separately.

The depreciation charge for each year is recognised in profit or loss.

Impairment tests are performed on property, plant and equipment when there is an indicator that they may be impaired. When the carrying amount of an item of property, plant and equipment is assessed to be higher than the estimated recoverable amount, an impairment loss is recognised immediately in profit or loss to bring the carrying amount in line with the recoverable amount.

An item of property, plant and equipment is derecognised upon disposal or when no future economic benefits are expected from its continued use or disposal. Any gain or loss arising from the de-recognition of an item of property, plant and equipment is included in profit or loss when the item is derecognised. The gain or loss arising from the de-recognition of an item of property, plant and equipment is determined as the difference between the net disposal proceeds, if any, and the carrying amount of the item.

#### **1.4 Goodwill**

Goodwill is initially measured at cost, being the excess of the business combination over the group's interest in the net fair value of the identifiable assets, liabilities and contingent liabilities. Subsequently goodwill is carried at cost less any accumulated impairment.

#### **1.5 Intangible assets**

An intangible asset is recognised when:

- it is probable that the expected future economic benefits that are attributable to the asset will flow to the entity; and
- the cost of the asset can be measured reliably.

Intangible assets are initially recognised at cost.

Expenditure on research is recognised as an expense when it is incurred.

An intangible asset arising from development is recognised when:

- it is technically feasible to complete the asset so that it will be available for use or sale;
- there is an intention to complete and use or sell it;
- there is an ability to use or sell it;
- it will generate probable future economic benefits;
- there are available technical, financial and other resources to complete the development and to use or sell the asset; and
- the expenditure attributable to the asset during its development can be measured reliably.

Intangible assets are subsequently carried at cost less any accumulated amortisation and any impairment losses.

Amortisation of intangible assets are included in the operating expenses as incurred.

The useful life and amortisation method of each intangible asset is reviewed at the end of each reporting period. If expectations differ from previous estimates, the change is accounted for as a change in accounting estimate.

Gains or losses arising from de-recognition of an intangible asset are measured as the difference between the net proceeds and the carrying amount of the asset and is recognised in profit or loss on de-recognition.

Amortisation is provided to write down the intangible assets on a straight line basis as follows:

<b>Item</b>	<b>Useful life</b>
Patents, trademarks and other rights	10 – 20 years

#### **1.6 Impairment of assets**

The group assesses at the end of each reporting period whether there is any indication that an asset may be impaired. If any such indication exists, the group estimates the recoverable amount of the asset.

Irrespective of whether there is any indication of impairment, the group also:

- tests intangible assets not yet available for use for impairment annually by comparing its carrying amount with its recoverable amount. This impairment test is performed at the same time every year.
- tests goodwill acquired in a business combination for impairment annually.

If there is any indication that an asset may be impaired, the recoverable amount is estimated for the individual asset. If it is not possible to estimate the recoverable amount of the individual asset, the recoverable amount of the cash generating unit to which the asset belongs is determined.

The recoverable amount of an asset or a cash generating unit is the higher of its fair value less costs to sell and its value in use.

If the recoverable amount of an asset is less than its carrying amount, the carrying amount of the asset is reduced to its recoverable amount. That reduction is an impairment loss.

An impairment loss of assets carried at cost less any accumulated depreciation or amortisation is recognised immediately in profit or loss.

Goodwill acquired in a business combination is, from the acquisition date, allocated to each of the cash generating units, or groups of cash generating units, that are expected to benefit from the synergies of the combination, irrespective of whether other assets or liabilities of the acquiree are assigned to those units or groups of units.

Each unit or group of units to which the goodwill is so allocated represents the lowest level within the entity at which the goodwill is monitored for internal management purposes.

An impairment loss is recognised for cash generating units if the recoverable amount of the unit is less than the carrying amount of the units. The impairment loss is allocated to reduce the carrying amount of the assets of the unit in the following order:

- first, to reduce the carrying amount of any goodwill allocated to the cash generating unit; and
- then, to the other assets of the unit, pro rata on the basis of the carrying amount of each asset in the unit.

An entity assesses at each reporting date whether there is any indication that an impairment loss recognised in prior periods for assets other than goodwill may no longer exist or may have decreased. If any such indication exists, the recoverable amounts of those assets are estimated. Where the recoverable amount of a previously impaired asset or a cash generating unit exceeds the carrying amount, the impairment is reversed, except when the impairment relates to goodwill. The increased carrying amount of an asset other than goodwill attributable to a reversal of an impairment loss shall not exceed the carrying amount that would have been determined had no impairment loss been recognised for the asset in prior periods.

A reversal of an impairment loss of assets carried at cost less accumulated depreciation or amortisation other than goodwill is recognised immediately in profit or loss. Any reversal of an impairment loss of a revalued asset is treated as a revaluation increase.

## **1.7 Interests in subsidiaries**

### **Company annual financial statements**

In the company's separate annual financial statements, investments in subsidiaries are carried at cost less any accumulated impairment.

The cost of an investment in a subsidiary is the aggregate of:

- the fair value, at the date of exchange, of assets given, liabilities incurred or assumed, and equity instruments issued by the company; plus
- any costs directly attributable to the purchase of the subsidiary.

## **1.8 Financial instruments**

### **Classification**

The group classifies financial assets and financial liabilities into the following categories:

- Loans and receivables
- Financial liabilities at fair value through profit or loss held for trading
- Financial liabilities measured at amortised cost

Classification depends on the purpose for which the financial instruments were obtained or incurred and takes place at initial recognition.

Financial assets classified as at fair value through profit or loss which are no longer held for the purposes of selling or repurchasing in the near term may be reclassified out of that category:

- in rare circumstances, and
- if the asset meets the definition of loans and receivables and the entity has the intention and ability to hold the asset for the foreseeable future or until maturity.

No other reclassifications may be made into or out of the fair value through profit or loss category.

### **Initial recognition and measurement**

Financial instruments are recognised initially when the group becomes a party to the contractual provisions of the instruments.

The group classifies financial instruments, or their component parts, on initial recognition as a financial asset, a financial liability or an equity instrument in accordance with the substance of the contractual arrangement.

Financial instruments are measured initially at fair value, including transaction costs, except for equity investments for which a fair value through profit or loss transaction costs are included in the initial measurement of the instrument.

Transaction costs on financial instruments at fair value through profit or loss are recognised in profit or loss.

### **Subsequent measurement**

Financial instruments at fair value through profit or loss are subsequently measured at fair value, with gains and losses arising from changes in fair value being included in profit or loss for the period.

Net gains or losses on the financial instruments at fair value through profit or loss exclude dividends and interest.

Loans and receivables are subsequently measured at amortised cost, using the effective interest rate method, less accumulated impairment losses.

Financial liabilities at amortised cost are subsequently measured at amortised cost, using the effective interest rate method.

Financial assets and financial liabilities are offset and the net amount reported in the consolidated statement of financial position if, and only if, there is a currently enforceable right to offset the recognised amounts and there is an intention to settle on a net basis, or to realise the assets and settle the liabilities simultaneously.

#### **Effective interest rate method**

The effective interest rate method is a method of calculating the amortized cost of a debt instrument and allocating interest income over the relevant period. The effective interest rate is the rate that exactly discounts estimated future cash receipts through the expected life of a debt instrument to the net carrying amount on initial recognition.

#### **De-recognition**

Financial assets are derecognised when the rights to receive cash flows from the investments have expired or have been transferred and the group has transferred substantially all risks and rewards of ownership.

Financial liabilities are derecognised when the obligation is discharged, cancelled or expires.

#### **Impairment of financial assets**

At each reporting date the group assesses all financial assets, other than those at fair value through profit or loss, to determine whether there is objective evidence that a financial asset or group of financial assets has been impaired.

For amounts due to the group, significant financial difficulties of the debtor, probability that the debtor will enter bankruptcy and default of payments are all considered indicators of impairment.

Impairment losses are recognised in profit or loss.

Impairment losses are reversed when an increase in the financial asset's recoverable amount can be related objectively to an event occurring after the impairment was recognised, subject to the restriction that the carrying amount of the financial asset at the date that the impairment is reversed shall not exceed what the carrying amount would have been had the impairment not been recognised.

Reversals of impairment losses are recognised in profit or loss except for equity investments classified as available-for-sale.

Where financial assets are impaired through use of an allowance account, the amount of the loss is recognised in profit or loss within operating expenses. When such assets are written off, the write off is made against the relevant allowance account. Subsequent recoveries of amounts previously written off are credited against operating expenses.

#### **Loans to (from) group companies**

These include loans to and from holding companies and subsidiaries.

Loans to (from) group companies are initially recognised at fair value and subsequently measured at amortised cost.

Loans to group companies are classified as loans and receivables.

Loans from group companies are classified as financial liabilities measured at amortised cost.

#### **Trade and other receivables**

Trade and other receivables are classified as loans and receivables.

Trade receivables are measured at initial recognition at fair value, and subsequently measured at amortised cost using the effective interest rate method. Appropriate allowances for estimated irrecoverable amounts are recognised in profit or loss when there is objective evidence that the asset is impaired. Significant financial difficulties of the debtor, probability that the debtor will enter bankruptcy or financial reorganisation, and default or delinquency in payments (more than 30 days overdue for local trade receivables and 90 days overdue for foreign trade receivables) are considered indicators that the trade receivable is impaired. The allowance recognised is measured as the difference between the asset's carrying amount and the present value of estimated future cash flows discounted at the effective interest rate computed at initial recognition.

The carrying amount of the asset is reduced through the use of an allowance account, and the amount of the loss is recognised in profit or loss within operating expenses. When a trade receivable is uncollectable, it is written off against the allowance account for trade receivables. Subsequent recoveries of amounts previously written off are credited against operating expenses in profit or loss.

#### **Trade and other payables**

Trade payables are classified as financial liabilities at amortised cost.

Trade payables are initially measured at fair value, and are subsequently measured at amortised cost, using the effective interest rate method.

#### **Cash and cash equivalents**

These are classified as loans and receivables.

Cash and cash equivalents comprise cash on hand and demand deposits, and other short-term highly liquid investments that are readily convertible to a known amount of cash and are subject to an insignificant risk of changes in value.

## **Borrowings**

Bank overdrafts and borrowings are classified as financial liabilities at amortised cost. Any difference between the proceeds (net of transaction costs) and the settlement or redemption of borrowings is recognised over the term of the borrowings in accordance with the group's accounting policy for borrowing costs.

## **Derivatives**

Derivative financial instruments, which are not designated as hedging instruments, consisting of foreign exchange contracts and interest rate swaps, are initially measured at fair value on the contract date, and are remeasured to fair value at subsequent reporting dates.

Changes in the fair value of derivative financial instruments are recognised in profit or loss as they arise.

Derivatives are classified as financial assets at fair value through profit or loss held for trading.

## **Derivative financial instruments and hedge accounting**

Derivatives are classified as financial assets at fair value through profit or loss.

The group designates certain derivatives as:

- hedges of a particular risk associated with a recognised asset or liability or a highly probable forecast transaction (cash flow hedge);

The group uses derivative financial instruments, such as interest rate swaps to hedge its interest rate risks. Such derivative financial instruments are classified as derivatives designated as hedging instruments in effective hedges.

Derivatives are carried as financial assets when the fair value is positive and as financial liabilities when the fair value is negative. Any gains or losses arising from changes in the fair value of the derivatives are taken directly to profit or loss, except for the effective portion of the cash flow hedges, which is recognised in other comprehensive income.

The group enters into cash flow hedges:

- when the hedging exposure to variability in cash flows that is neither attributable to a particular risk related to a recognised asset or liability or a highly probable forecast transaction.

At the inception of the hedge relationship, the group formally designated and documented the hedge relationship to which the group wishes to apply hedge accounting and the risk management objective and strategy for undertaking the hedge. The documentation includes identification of the hedging instrument, the hedged item or transaction, the nature of the risk being hedged and how the entity will assess the effectiveness of changes in the hedging instruments fair value in offsetting the exposure to changes in the hedged item's fair value or cash flows attributable to the hedged risk. Such hedges are expected to be highly effective in achieving offsetting changes in cash flows and are assessed on an ongoing basis to determine that they actually have been highly effective throughout the financial reporting periods for which they were designated.

Hedges that meet the strict criteria for hedge accounting are accounted for as described below:

## **Cash flow hedge**

The group has cash flow hedges in the form of interest rate swaps. The interest rate swap is used as a hedge for the exposure of changes in cash flows on interest and its secured borrowings that are subject to a variable interest rate. See note 17 for more details.

The effective portion of the gain or loss on the hedging instrument is recognised in other comprehensive income in the cash flow hedge reserve while the ineffective portion is recognised immediately in profit or loss within 'other operating expenses'.

When a hedging instrument no longer qualifies for hedge accounting, the hedge accounting is discontinued prospectively from the date it becomes ineffective. All hedge differences are recognised immediately in profit or loss. Any gains or losses previously recognised in equity remain in equity until the related cash flow occurs. From that point on the interest rate swap will be accounted for as a derivative and classified as a "financial liability at fair value through profit or loss" or "held for trading" with changes in fair value being recognised in profit or loss.

## **1.9 Inventories**

Inventories are measured at the lower of cost and net realisable value on the first-in-first-out basis.

Net realisable value is the estimated selling price in the ordinary course of business less the estimated costs of completion and the estimated costs necessary to make the sale.

The cost of inventories comprises costs of purchase, costs of conversion and other costs incurred in bringing the inventories to their present location and condition.

When inventories are sold, the carrying amount of those inventories are recognised as an expense in the period in which the related revenue is recognised. The amount of any write-down of inventories to net realisable value and all losses of inventories are recognised as an expense in the period which the write-down or loss occurs. The amount of any reversal of any write-down of inventories, arising from an increase in net realisable value, are recognised as a reduction in the amount of inventories recognised as an expense in the period in which the reversal occurs.

## **1.10 Share capital and equity**

Ordinary shares are classified as an equity instrument.

An equity instrument is any contract that evidences a residual interest in the assets of an entity after deducting all of its liabilities.

## 1.11 Tax

### Current tax assets and liabilities

Current tax for current and prior periods is, to the extent unpaid, recognised as a liability. If the amount already paid in respect of current and prior periods exceeds the amount due for those periods, the excess is recognised as an asset.

### Deferred tax assets and liabilities

A deferred tax liability is recognised for all taxable temporary differences, except to the extent that the deferred tax liability arises from:

- the initial recognition of goodwill; or
- the initial recognition of an asset or liability in a transaction which:
- is not a business combination; and
- at the time of the transaction, affects neither accounting profit nor taxable profit (tax loss).

A deferred tax asset is recognised for all deductible temporary differences to the extent that it is probable that taxable profit will be available against which the deductible temporary difference can be utilised, unless the deferred tax asset arises from the initial recognition of an asset or liability in a transaction that:

- is not a business combination; and
- at the time of the transaction, affects neither accounting profit nor taxable profit (tax loss)

A deferred tax asset is recognised for all deductible temporary differences to the extent that it is probable that taxable profit will be available against which the deductible temporary difference can be utilised, unless the deferred tax asset arises from the initial recognition of an asset or liability in a transaction that:

- is not a business combination; and
- at the time of the transaction, affects neither accounting profit nor taxable profit (tax loss).

It is probable that taxable profit will be available against which a deductible temporary difference can be utilised when there are sufficient taxable temporary differences relating to the same taxation authority and the same tax entity which are expected either to reverse in the same period as the deductible temporary difference or to reverse in periods into which a tax loss resulting in the deferred tax asset can be carried forward.

Deferred tax assets and liabilities are measured at the tax rates that are expected to apply to the period when the asset is realised or the liability is settled, based on tax rates and tax laws that have been enacted or substantively enacted by the end of each reporting period.

### Tax expenses

Current and deferred taxes are recognised as income or an expense and are included in profit or loss for the period, except to the extent that the tax arises from:

- a transaction or event which is recognised, in the same or a different period, in other comprehensive income, or
- a business combination.

Current tax and deferred taxes are charged or credited in other comprehensive income or equity if the tax relates to items that are credited or charged, in the same or a different period, in other comprehensive income or equity.

Current tax and deferred taxes are charged or credited directly to equity if the tax relates to items that are credited or charged, in the same or a different period, directly in equity.

## 1.12 Provisions and contingencies

Provisions are recognised when:

- the group has a present obligation as a result of a past event;
- it is probable that an outflow of resources embodying economic benefits will be required to settle the obligation; and
- a reliable estimate can be made of the obligation.

The amount of a provision is the present value of the expenditure expected to be required to settle the obligation.

Contingent assets and contingent liabilities are not recognised. Contingencies are disclosed in note 39.

## 1.13 Revenue

Revenue is measured at the fair value of the consideration received or receivable and represents the amounts receivable for goods and services provided in the normal course of business, net of trade discounts and volume rebates and value added tax.

Revenue from the sale of goods is recognised when all the following conditions have been satisfied:

- the group has transferred to the buyer the significant risks and rewards of ownership of the goods;
- the group retains neither continuing managerial involvement to the degree usually associated with ownership nor effective control over the goods sold;
- the amount of revenue can be measured reliably;
- it is probable that the economic benefits associated with the transaction will flow to the group; and
- the costs incurred or to be incurred in respect of the transaction can be measured reliably.

Royalties are recognised on the accrual basis in accordance with the substance of the relevant agreements.

#### **1.14 Cost of sales**

When inventories are sold, the carrying amount of those inventories are recognised as an expense in the period in which the related revenue is recognised. The amount of any write-down of inventories to net realisable value and all losses of inventories are recognised as an expense in the period the write-down or loss occurs. The amount of any reversal of any write-down of inventories, arising from an increase in net realisable value, is recognised as a reduction in the amount of inventories recognised as an expense in the period in which the reversal occurs.

#### **1.15 Employee benefits**

##### **Short-term employee benefits**

The cost of short-term employee benefits, (those that are expected to be settled wholly before 12 months after the end of the annual reporting period in which the service is rendered, such as sick leave, bonuses and non-monetary benefits such as medical care), are recognised in the period in which the service is rendered and are not discounted.

The expected cost of compensated absences is recognised as an expense as the employees render services that increase their entitlement or, in the case of non-accumulating absences, when the absence occurs.

The expected cost of profit sharing and bonus payments is recognised as an expense when there is a legal or constructive obligation to make such payments as a result of past performance.

##### **Defined contribution plans**

Payments to defined contribution retirement benefit plans are charged as an expense as the related service is rendered.

#### **1.16 Leases**

A lease is classified as a finance lease if it transfers substantially all the risks and rewards incidental to ownership. A lease is classified as an operating lease if it does not transfer substantially all the risks and rewards incidental to ownership.

##### **Operating leases – lessee**

Operating lease payments are recognised as an expense on an accrual basis.

Any contingent rents are expensed in the period they are incurred.

#### **1.17 Borrowing costs**

Borrowing costs are recognised as an expense in the period in which they are incurred.

#### **1.18 Translation of foreign currencies**

##### **Functional and presentation currency**

Items included in the group annual financial statements of each of the group entities are measured using the currency of the primary economic environment in which the entity operates (functional currency).

The consolidated group annual financial statements are presented in Rands which is the group functional and presentation currency.

##### **Foreign currency transactions**

The functional currency of the company is South African Rands.

A foreign currency transaction is recorded, on initial recognition in Rands, by applying to the foreign currency amount the spot exchange rate between the functional currency and the foreign currency at the date of the transaction.

At the end of each reporting period:

- foreign currency monetary items are translated using the closing rate;
- non-monetary items that are measured in terms of historical cost in a foreign currency are translated using the exchange rate at the date of the transaction; and
- non-monetary items that are measured at fair value in a foreign currency are translated using the exchange rates at the date when the fair value was determined.

Exchange differences arising on the settlement of monetary items or on translating monetary items at rates different from those at which they were translated on initial recognition during the period or in previous group annual financial statements are recognised in profit or loss in the period in which they arise.

When a gain or loss on a non-monetary item is recognised in other comprehensive income and accumulated in equity, any exchange component of that gain or loss is recognised in other comprehensive income and accumulated in equity. When a gain or loss on a non-monetary item is recognised in profit or loss, any exchange component of that gain or loss is recognised in profit or loss.

Cash flows arising from transactions in a foreign currency are recorded in Rands by applying to the foreign currency amount the exchange rate between the Rand and the foreign currency at the date of the cash flow.

##### **Net investment in foreign operations**

The results and financial position of a foreign operation are translated into the functional currency using the following procedures:

- assets and liabilities for each statement of financial position presented are translated at the closing rate at the date of that statement of financial position;
- income and expenses for each item of profit or loss are translated at exchange rates at the dates of the transactions; and

- all resulting exchange differences are recognised to other comprehensive income and accumulated as a separate component of equity.

Exchange differences arising on a monetary item that forms part of a net investment in a foreign operation are recognised initially in other comprehensive income and accumulated in the reserve. They are recognised in profit or loss as a reclassification adjustment from other comprehensive income on disposal of the net investment.

When a gain or loss on a non-monetary item is recognised in other comprehensive income and accumulated in equity, any exchange component of that gain or loss is recognised in other comprehensive income and accumulated in equity. When a gain or loss on a non-monetary item is recognised in profit or loss, any exchange component of that gain or loss is recognised in profit or loss.

The cash flows of a foreign subsidiary are translated at the exchange rates between the functional currency and the foreign currency at the dates of the cash flows.

### 1.19 Segmental reporting

Operating segments are components of entities from which revenue may be earned and expenses may be incurred, whose operating results are regularly reviewed by the entity's chief operating decision maker to make decisions about resource allocations and for which discrete financial information is available. The group operates as a single operating segment, the manufacturing of barrier security, which the CEO assesses for resource allocation.

## 2. NEW STANDARDS AND INTERPRETATIONS

### 2.1 Standards and interpretations not yet effective and Standards and interpretations effective and adopted in the current year:

#### IFRS 9 Financial Instruments

This new standard is the result of a three phase project to replace IAS 39 Financial Instruments: Recognition and Measurement. To date, the standard includes chapters for classification, measurement and de-recognition of financial assets and liabilities as well as new hedging requirements. The following are main changes from IAS 39:

- Financial assets will be categorised as those subsequently measured at fair value or at amortised cost.
- Financial assets at amortised cost are those financial assets where the business model for managing the assets is to hold the assets to collect contractual cash flows (where the contractual cash flows represent payments of principal and interest only). All other financial assets are to be subsequently measured at fair value.
- For hybrid contracts, where the host contract is an asset within the scope of IFRS 9, then the whole instrument is classified in accordance with IFRS 9, without separation of the embedded derivative. In other circumstances, the provisions of IAS 39 still apply.
- Voluntary reclassification of financial assets is prohibited. Financial assets shall be reclassified if the group changes its business model for the management of financial assets. In such circumstances, reclassification takes place prospectively from the beginning of the first reporting period after the date of change of the business model.
- Investments in equity instruments may be measured at fair value through other comprehensive income. When such an election is made, it may not subsequently be revoked, and gains or losses accumulated in equity are not recycled to profit or loss on de-recognition of the investment. The election may be made per individual investment.
- IFRS 9 does not allow for investments in equity instruments to be measured at cost.
- The classification categories for financial liabilities remains unchanged. However, where a financial liability is designated as at fair value through profit or loss, the change in fair value attributable to changes in the liabilities credit risk shall be presented in other comprehensive income. This excludes situations where such presentation will create or enlarge an accounting mismatch, in which case, the full fair value adjustment shall be recognised in profit or loss.
- The new hedging provisions align hedge accounting more closely with the actual risk management approach.
- Certain non-derivative financial instruments are now allowed as hedging instruments.
- Additional exposures are allowed as hedged items. These exposures include risk components of non-financial items, net positions and layer components of items, aggregated exposures combining derivative and non-derivative exposures and equity instruments at fair value through other comprehensive income.
- The hedge effectiveness criteria have been amended, including the removal of the 80% – 125% “bright line test” to qualify for hedge accounting.
- The concept of rebalancing has been introduced when the hedging relationship is ineffective because the hedge ratio is no longer appropriate. When rebalancing is required, and provided the risk management objective remains the same, the hedge ratio is adjusted rather than discontinuing the hedging relationship.
- Additional disclosure requirements have been introduced for hedging.

The effective date of the standard is for years beginning on or after 1 January 2018.

The group expects to adopt the standard for the first time in the 2019 group annual financial statements.

It is unlikely that the standard will have a material impact on the group's annual financial statements.

The effective date of the amendment is for years beginning on or after 1 July 2014.

The group has adopted the amendment for the first time in the 2015 group annual financial statements.

#### **IFRS 15 Revenue from Contracts with Customers**

IFRS 15 supersedes IAS 11 Construction contracts; IAS 18 Revenue; IFRIC 13 Customer Loyalty Programmes; IFRIC 15 Agreements for the construction of Real Estate; IFRIC 18 Transfers of Assets from Customers and SIC 31 Revenue Barter Transactions Involving Advertising Services.

The core principle of IFRS 15 is that an entity recognises revenue to depict the transfer of promised goods or services to customers in an amount that reflects the consideration to which the entity expects to be entitled to, in exchange for those goods or services. An entity recognises revenue in accordance with that core principle by applying the following steps:

- Identify the contract(s) with a customer
- Identify the performance obligations in the contract
- Determine the transaction price
- Allocate the transaction price to the performance obligations in the contract
- Recognise revenue when (or as) the entity satisfies a performance obligation.

IFRS 15 also includes extensive new disclosure requirements.

The effective date of the standard is for years beginning on or after 1 January 2018.

The group expects to adopt the standard for the first time in the 2019 group annual financial statements.

It is unlikely that the standard will have a material impact on the group's annual financial statements.

#### **IAS 1 Presentation of Financial Statements**

Amendment as part of a major initiative to improve presentation and disclosure in financial reports, designed to further encourage companies to apply professional judgement in determining what information to disclose in their financial statements, such as the following:

- materiality consideration
- line items in the Statement of Financial Position and Statement of Comprehensive Income can be aggregated or disaggregated as relevant
- ordering of notes to assist understandability and comparability.

The effective date of the amendment is for years beginning on or after 1 January 2016.

The group expects to adopt the amendment for the first time in the 2017 group annual financial statements.

It is unlikely that the amendment will have a material impact on the group's annual financial statements.

R20,000,000 of Trellicor Proprietary Limited's trade debtors are pledged as security for banking facilities from First National Bank Limited.

Terms and conditions for security provided for banking facilities:

The following conditions are required to be complied with in order to ensure the ongoing availability of the facilities approved with First National Bank Limited:

The group's shareholders' interest will not reduce to below R35,000,000. Shareholders' interest for these purposes include ceded loan accounts, share capital and retained earnings and excludes any intangibles, intercompany debit loans and loans to other entities; and

The utilisation of the Short-Term Direct, Presettlement and/or Contingent facilities in excess of R7,000,000 will not exceed 40% of the combined value of good ceded debtors. For these purposes, good ceded debtors excludes those outstanding for longer than 60 days, those provided for as bad or doubtful, intercompany debtors and any such other accounts as the bank may identify and advise the company. This implies that to utilise the facility in full, good cover of at least R20,000,000 is required. This good debtor cover is currently being achieved; and

Unless approved by the bank, the concentration of any one debtor is not to exceed 10% of the total good debtor book.

The maximum exposure to credit risk at the reporting date is the fair value of each class of loan receivable mentioned above. The fair value of trade receivables is the carrying amount due to the short term nature of the receivables. The group does not hold any collateral as security.

The carrying amounts of financial liabilities at fair value through profit or loss are denominated in the following currencies:

Rand	1,384,374	1,961,352	2,824,631

#### Fair value hierarchy of financial liabilities at fair value through profit or loss

For financial liabilities recognised at fair value, disclosure is required of a fair value hierarchy which reflects the significance of the inputs used to make the measurements.

Level 1 represents those assets which are measured using unadjusted quoted prices for identical liabilities.

Level 2 applies inputs other than quoted prices that are observable for the liabilities either directly (as prices) or indirectly (derived from prices).

Level 3 applies inputs which are not based on observable market data.

Level 2	2015	2014	2013
ABSA Bank Limited Interest rate swap	1,384,374	1,961,352	2,824,631

The ABSA Bank Limited interest rate swap financial liability is designated as a financial liability at fair value through profit and loss. In the past the group had applied hedge accounting with regard to the interest rate swap as the hedge was assessed as being effective. Since the hedge no longer qualifies for hedge accounting the hedge accounting was discontinued prospectively. All hedge differences are recognised immediately in profit and loss. Gains and losses that were previously recognised in equity are continuously released to the statement of comprehensive income until the repayment of the bank borrowings.

The portion recognised in profit or loss due to the change in fair value of the interest rate swap amounts to a gain of R576,978 (2014: R863,279) (2013: R1,417,390).

The notional principle amounts of outstanding interest swap contracts at 30 June 2015 were R40,000,000 (2014: R40,000,000) (2013: R40,000,000).

At June 2015, the fixed interest rate maintained at 12.30% (2014: 12.30%) (2013: 12.30%), and the floating rate are prime interest rate in South Africa.

The valuation technique used by the third party, ABSA Bank Limited is the discounted cash flow method. Future cash flows are estimated based on forward interest rates (from observable yield curves at the end of the reporting period) and contract interest rates, discounted at a rate that reflects the credit risk of various counterparties.

#### 42. RISK MANAGEMENT

##### Capital risk management

The group's objectives when managing capital are to safeguard the group's ability to continue as a going concern in order to maximise returns for shareholders and benefits for other stakeholders through an appropriate debt/equity balance.

The capital structure of the group consists of debt, which includes the borrowings as disclosed in note 17, cash and cash equivalents as disclosed in note 11 and equity as disclosed in the statement of financial position.

The group monitors capital on the basis of the debt: equity ratio.

This ratio is calculated as net debt divided by total equity. Net debt is calculated as total borrowings less cash and cash equivalents. Total equity is represented in the statement of financial position. The ratio is closely monitored by management.

There are no externally imposed capital requirements.

There have been no changes to what the group manages as capital, the strategy for capital maintenance or externally imposed capital requirements from the previous year.

The debt: equity ratio at 2015, 2014 and 2013 respectively were as follows:

		2015	2014	2013
<b>Total borrowings</b>				
Other financial liabilities	17	21,068,432	23,903,821	24 685 669

Debt equity ratio		8%	19%	18%

##### Financial risk management

The group's financial instruments consist primarily of cash resources invested with financial institutions, accounts receivable, accounts payable, loans to/(from) companies, bonds, long term loans, an interest rate swap and instalment sale agreements. The group's activities expose it to a variety of financial risks including credit, interest, foreign currency, capital and liquidity risk.

Risk management policies have been established to identify and analyse the risks faced by the group, to set approximate risk limits and controls and to monitor risks and adherence to limits. Risk management policies are regularly reviewed to reflect changes in the market conditions and the group's activities. The group through training, management standards and procedures aims to develop a disciplined and constructive environment in which all employees understand their roles and obligations.

There have been no changes to the group's overall risks or financial risk management objectives, policies and processes from the previous period.

##### Liquidity risk

Prudent liquidity risk management implies maintaining sufficient cash and marketable securities and the availability of funding through an adequate amount of committed credit facilities. Due to the dynamic nature of the underlying businesses, group treasury maintains flexibility in funding by maintaining facilities under committed credit lines.

These facilities are used whenever an entity within the group requires cash to maintain operations. Overall credit lines are approved by the Board. There is a concentration risk in that both the major facilities used (Wesbank and FNB) are part of the FirstRand Group. However, this risk is mitigated by the fact that the FirstRand Group is a strong financial services provider and that a large substitution market exists. Credit facilities also exist with ABSA Bank Limited and Nedbank Limited.

Management monitors rolling forecasts of the entity's cash and cash equivalents on the basis of expected cash flow. There is a central cash management function at group level, which manages cash flows and balances, ensuring liquidity by operation as required and the maximisation of the overall return on free cash.

The table below analyses the group's financial liabilities into relevant maturity groupings based on the remaining period at the statement of financial position to the contractual maturity date. The amounts disclosed in the table are the contractual undiscounted cash flows. Balances due within 12 months equal their carrying balances as the impact of discounting is not significant.

Other financial liabilities	4,434,779	3,743,153	10,215,992	11,642,649

#### Interest rate risk

Based on the various scenarios, the group manages its cash flow interest rate risk by using a floating-to-fixed interest rate swap. Such interest rate swap has the economic effect of converting borrowings from floating rates to fixed rates. Generally, the group raises long-term borrowings at floating rates and swaps them into fixed rates that are lower than those available if the group borrowed at fixed rates directly. Under the interest rate swaps, the group agrees with other parties to exchange, at monthly intervals, the difference between fixed contract rates and floating-rate interest amounts calculated by reference to the agreed notional amounts.

The group's interest rate risk arises from cash deposits and financial liabilities, which can impact on the cash flows of these instruments. The exposure to interest rate risk is managed through a central cash management mechanism at group level, which enables the group to maximise returns whilst minimising risk.

As the reference rate applicable to the interest rate swap is fixed at 12.30% per annum, a change in the prime rate of interest has no economic impact on the group. This assumes a constant debt of R40,000,000 and no change in the bank's margin that is charged to the group.

#### Credit risk

Credit risk is the risk of financial loss to the group if a customer or counterparty to a financial instrument fails to meet their contractual obligations. Credit risk consists mainly of cash deposits, cash equivalents and trade receivables.

The company only deposits cash with major banks with high quality credit standing and limits exposure to any one counterparty.

The measurement and control of credit risk relating to trade receivables is achieved through a combination of weekly reviews by executive management, monthly review by executive committee and quarterly review by the Trellidor Holdings Board. The latter reviews are undertaken by people independent of the daily operations of the group. Executive management is held accountable for any defaults. A suitable provision is made for doubtful debts, which is formally reviewed at least on a quarterly basis.

Financial assets exposed to credit risk at year end were as follows:

<b>Financial instrument</b>	<b>2015</b>	<b>2014</b>	<b>2013</b>
Financial assets	1,535,822	1,095,305	1,892,427
Trade and other receivables	38,239,890	41,884,961	27,669,987
Cash and cash equivalents	15,424,293	11,191,778	15,999,532

#### Foreign exchange risk

The group imports raw materials and components and exports finished goods. These transactions are foreign currency based, hence there is exposure to foreign currency risk in the form of transactions and translation of expenses from the fluctuations in the foreign currency rates. The group does not hedge foreign exchange fluctuations but utilises as part of its risk management, the natural hedging that arises from being an importer and exporter of goods.

The group has certain investments in foreign operations, whose net assets are exposed to foreign currency translation risk.

At 30 June 2015, if the currency had weakened/strengthened by 1% against the US dollar with all other variables held constant, pretax profit for the year would have been R63,319 (2014: R96,517) (2013: R39,378) higher/lower, mainly as a result of foreign exchange gains or losses on translation of US dollar denominated trade receivables and trade payables.

An audit involves performing procedures to obtain audit evidence about the amounts and disclosures in the Consolidated Historical Financial Information for the three years ended 30 June 2015, 30 June 2014 and 30 June 2013. The procedures selected depend on the auditor's judgment, including the assessment of the risks of material misstatement of the Consolidated Historical Financial Information, whether due to fraud or error.

In making those risk assessments, the auditor considers internal control relevant to the entity's preparation and fair presentation of the Consolidated Historical Financial Information for the three years ended 30 June 2015, 30 June 2014 and 30 June 2013 in order to design audit procedures that are appropriate in the circumstances, but not for the purpose of expressing an opinion on the effectiveness of the entity's internal control.

- 6.6 Each Share issued by the Company has associated with it an irrevocable right of the Shareholder to vote on any proposal to amend the preferences, rights, limitations and other terms associated with that Share. The variation of any preferences, rights, limitations and other terms associated with any class of Shares as set out in this Memorandum of Incorporation may be enacted only by an amendment of this Memorandum of Incorporation approved by special resolution adopted by the Ordinary Shareholders. If any amendment of the Memorandum of Incorporation relates to the variation of any preferences, rights, limitation or any other terms attaching to any other class of Shares already in issue, that amendment must not be implemented without a special resolution, taken by the holders of Shares of that class at a separate meeting. In such instances, the holders of such Shares will be allowed to vote at the meeting of Ordinary Shareholders subject to clause 22.2. No resolution of Shareholders in respect of such amendment shall be proposed or passed, unless a special resolution of the holders of the Shares of that class approve the amendment.
- 6.7 The authorisation and classification of Shares, the creation of any class of Shares, the conversion of one class of Shares into one or more other classes, the consolidation of Securities, the sub-division of Securities, the change of the name of the Company, the increase of the number of authorised Securities, and, subject to clause 6.6, the variation of any preferences, rights, limitations and other terms associated with each class of Shares as set out in this Memorandum of Incorporation may be changed only by an amendment of this Memorandum of Incorporation by special resolution of the Shareholders and in accordance with the JSE Listings Requirements, to the extent required, save if such an amendment is ordered by a court in terms of sections 16(1)(a) and 16(4) of the Act.
- 6.8 No Shares may be authorised in respect of which the preferences, rights, limitations or any other terms of any class of Shares may be varied and no such resolution may be proposed to Shareholders for rights to include such variation in response to any objectively ascertainable external fact or facts as provided for in sections 37(6) and 37(7) of the Act.
- 6.9 The Company may only issue Shares which are fully paid up and freely transferable and only within the classes and to the extent that those Shares have been authorised by or in terms of this Memorandum of Incorporation.

- 6.10 The Board may, subject to clauses 6.11 and 6.16, issue Shares at any time, but only within the classes and to the extent that those Shares have been authorised by or in terms of this Memorandum of Incorporation.
- 6.11 Subject to clause 6.17, the Board may not issue unissued Ordinary Shares unless such Ordinary Shares have first been offered to existing Ordinary Shareholders in proportion to their shareholding (on such terms and in accordance with such procedures as the Board may determine), unless the relevant issue of Ordinary Shares –
- 6.11.1 is for the acquisition of assets, is a vendor consideration placing related to an acquisition of assets, or is an issue for the purposes of an amalgamation or merger; or
  - 6.11.2 is an issue pursuant to options or conversion rights; or
  - 6.11.3 is an issue in terms of an approved share incentive scheme; or
  - 6.11.4 is an issue of shares for cash (as contemplated in the JSE Listings Requirements), which has been approved by the Shareholders by ordinary resolution, either by way of a general authority (which may be either conditional or unconditional) to issue Shares in its discretion or a specific authority in respect of any particular issue of Shares, in accordance with the JSE Listings Requirements, provided that, if such approval is in the form of a general authority to the Directors, it shall be valid only until the next annual general meeting of the Company or for 15 (fifteen) months from the date of the passing of the ordinary resolution, whichever is the earlier, and it may be varied or revoked by any general meeting of the Shareholders prior to such annual general meeting; or
  - 6.11.5 otherwise falls within a category in respect of which it is not, in terms of the JSE Listings Requirements, a requirement for the relevant Shares to be so offered to existing Ordinary Shareholders; or
  - 6.11.6 is otherwise undertaken in accordance with an authority approved by Ordinary Shareholders in general meeting,
- provided that fractions of Shares will not be issued and that any fractions of Shares will be rounded or otherwise dealt with in accordance with the JSE Listings Requirements. After the expiration of the time within which an offer may be accepted, or on the receipt of an intimation from the person to whom the offer is made that he declines to accept the Shares offered, the Directors may, subject to the foregoing provisions, issue such Shares in such manner as they consider most beneficial to the Company.
- 6.12 The Directors may exclude any Shareholders or category of Shareholders from an offer contemplated in clause 6.11 if and to the extent that they consider it necessary or expedient to do so because of legal impediments or compliance with the laws or the requirements of any regulatory body of any territory, outside of South Africa, that may be applicable to the offer.
- 6.13 Alterations of share capital, authorised shares and rights attaching to a class/es of Shares; all issues of Shares for cash and all issues of options and convertible securities granted or issued for cash must, in addition to the foregoing provisions, be undertaken in accordance with the JSE Listings Requirements.
- 6.14 All Securities of the Company for which a listing is sought on the JSE and all Securities of the same class as Securities of the Company which are listed on the JSE must, notwithstanding the provisions of section 40(5) of the Act, but unless otherwise required by the Act, only be issued after the Company has received the consideration approved by the Company for the issuance of such Securities.
- 6.15 Subject to sections 40(5) to 40(7) of the Act, when the Company has received the consideration approved by the Board for the issuance of any Shares –
- 6.15.1 those Shares are fully paid up; and
  - 6.15.2 the Company must issue those Shares and cause the name of the holder to be entered onto the Company's Securities Register in accordance with sections 49 to 56 of the Act.
- 6.16 Notwithstanding anything to the contrary contained in this Memorandum of Incorporation, any issue of Shares, Securities convertible into Shares, or rights exercisable for Shares in a transaction, or a series of integrated transactions shall, if and to the extent that this may be required in terms of section 41(3) of the Act, require the approval of the Shareholders by special resolution if the voting power of the class of Shares that are issued or are issuable as a result of the transaction or series of integrated transactions will be equal to or exceed 30% of the voting power of all the Shares of that class held by Shareholders immediately before that transaction or series of integrated transactions.
- 6.17 Except to the extent that any such right is specifically included as one of the rights, preferences or other terms upon which any class of Shares is issued or as may otherwise be provided in this Memorandum of Incorporation (as is set out in clause 6.11), no Shareholder shall have any pre-emptive or other similar preferential right to be offered or to subscribe for any additional Shares issued by the Company.

## 13 DEBT INSTRUMENTS

The Board may authorise the Company to issue secured or unsecured debt instruments as set out in section 43(2), but no special privileges associated with any such debt instruments, such as attending and voting at general meetings and the appointment of Directors, or any other special privileges contemplated in section 43(3) may be granted, and the authority of the Board in such regard is accordingly limited by this Memorandum of Incorporation.

## 14 CAPITALISATION SHARES

- 14.1 The Board shall have the power and authority to –
- 14.1.1 approve the issuing of any authorised Shares as capitalisation Shares;
  - 14.1.2 issue Shares of one class as capitalisation Shares in respect of Shares of another class; and
  - 14.1.3 resolve to permit Shareholders to elect to receive a cash payment in lieu of a capitalisation Share,

provided that such issue is effected in accordance with the requirements of section 47 and has been approved by the JSE to the extent required under the JSE Listings Requirements and that the JSE Listings Requirements have otherwise been complied with.

- 14.2 The Board may not resolve to offer a cash payment in lieu of awarding a capitalisation share, as contemplated in clause 14.1.3, unless the Board –

14.2.1 has considered the Solvency and Liquidity Test as required by section 46, on the assumption that every such Shareholder would elect to receive cash; and

14.2.2 is satisfied that the Company would satisfy the Solvency and Liquidity Test immediately upon the completion of the distribution.

## **16 FINANCIAL ASSISTANCE**

The Board may authorise the Company to provide financial assistance by way of loan, guarantee, the provision of security or otherwise to any person for the purpose of, or in connection with, the subscription of any option, or any Securities, issued or to be issued by the Company or a related or inter-related company, or for the purchase of any such Securities, as set out in (and in accordance with) section 44, and the authority of the Board in this regard is not limited or restricted by this Memorandum of Incorporation.

## **17 ACQUISITION BY THE COMPANY OF ITS OWN SHARES**

- 17.1 Subject to the JSE Listings Requirements, the provisions of the Act, including section 48, and the further provisions of this clause 17 –

17.1.1 the Board may determine that the Company acquire a number of its own Shares; and

17.1.2 the board of any subsidiary of the Company may determine that such subsidiary acquire Shares of the Company, but –

17.1.2.1 not more than 10% (ten percent), in aggregate, of the number of issued Shares of any class may be held by, or for the benefit of, all of the subsidiaries of the Company, taken together; and

17.1.2.2 no voting rights attached to those Shares may be exercised while the Shares are held by that subsidiary and it remains a subsidiary of the Company.

- 17.2 Any decision by the Company to acquire its own Shares must satisfy the JSE Listings Requirements and the requirements of section 46 and, accordingly, the Company may not acquire its own Shares unless –

17.2.1 for as long as it is required in terms of the JSE Listings Requirements, the acquisition has been approved by a special resolution of the Shareholders, whether in respect of a particular repurchase or generally approved by Shareholders and unless such acquisition otherwise complies with the applicable provisions of paragraphs 5.67 to 5.81 of the JSE Listings Requirements (or such other sections as may be applicable from time to time);

17.2.2 the acquisition –

17.2.2.1 is pursuant to an existing legal obligation of the Company, or a court order; or

17.2.2.2 the Board, by resolution, has authorised the acquisition;

17.2.3 it reasonably appears that the Company will satisfy the Solvency and Liquidity Test immediately after completing the proposed acquisition; and

17.2.4 the Board, by resolution, has acknowledged that it has applied the Solvency and Liquidity Test and reasonably concluded that the Company will satisfy the Solvency and Liquidity Test immediately after completing the proposed acquisition.

- 17.3 A decision of the Board referred to in clause 17.1.1 –

17.3.1 must be approved by a special resolution of the Shareholders if any Shares are to be acquired by the Company from a Director or prescribed officer of the Company, or a person related to a Director or prescribed officer of the Company; and

17.3.2 is subject to the requirements of sections 114 and 115 if, considered alone, or together with other transactions in an integrated series of transactions, it involves the acquisition by the Company of more than 5% (five percent) of the issued Shares of any particular class of the Company's Shares.

- 17.4 Notwithstanding any other provision of this Memorandum of Incorporation, the Company may not acquire its own Shares, and no subsidiary of the Company may acquire Shares of the Company if, as a result of that acquisition, there would no longer be any Shares of the Company in issue other than –

17.4.1 Shares held by one or more subsidiaries of the Company; or

17.4.2 convertible or redeemable Shares.

## **26 COMPOSITION AND POWERS OF THE BOARD OF DIRECTORS**

### **26.1 Number of Directors**

26.1.1 In addition to the minimum number of Directors, if any, that the Company must have to satisfy any requirement in terms of the Act to appoint an audit committee and a social and ethics committee, the Board must comprise at least 4 (four) Directors and the Shareholders shall be entitled, by ordinary resolution, to determine such maximum number of Directors as they from time to time shall consider appropriate.

- 26.1.2 All Directors shall be elected by an ordinary resolution of the Shareholders at a general or annual general meeting of the Company and no appointment of a Director in accordance with a resolution passed in terms of section 60 shall be competent.

- 26.2 Election of Directors**
- 26.2.1 In any election of Directors –
- 26.2.1.1 the election is to be conducted as a series of votes, each of which is on the candidacy of a single individual to fill a single vacancy, with the series of votes continuing until all vacancies on the Board have been filled; and
- 26.2.1.2 in each vote to fill a vacancy –
- 26.2.1.2.1 each vote entitled to be exercised may be exercised once; and
- 26.2.1.2.2 the vacancy is filled only if a majority of the votes exercised support the candidate.

- 26.3 Eligibility, Resignation and Rotation of Directors**
- 26.3.1 Apart from satisfying the qualification and eligibility requirements set out in section 69, a person need not satisfy any eligibility requirements or qualifications to become or remain a Director or a prescribed officer of the Company.
- 26.3.2 No Director shall be appointed for life or for an indefinite period and the Directors shall rotate in accordance with the following provisions of this clause 26.3.2 –
- 26.3.2.1 at each annual general meeting referred to in clause 20.2.1, 1/3 (one third) of the non-executive Directors for the time being, or if their number is not 3 (three) or a multiple of 3 (three), the number nearest to 1/3 (one third), but not less than 1/3 (one third), shall retire from office, provided that if a Director is appointed as an executive Director or as an employee of the Company in any other capacity, he or she shall not, while he or she continues to hold that position or office, be subject to retirement by rotation and he or she shall not, in such case, be taken into account in determining the rotation or retirement of Directors;
- 26.3.2.2 the Directors to retire in every year shall be those who have been longest in office since their last election, but as between persons who were elected as Directors on the same day, those to retire shall, unless they otherwise agree among themselves, be determined by lot;
- 26.3.2.3 a retiring Director shall be eligible for re-election;
- 26.3.2.4 the Company, at the general meeting at which a Director retires in the above manner, or at any other general meeting, may fill the vacancy by electing a person thereto, provided that the Company shall not be entitled to fill the vacancy by means of a resolution passed in accordance with clause 25;
- 26.3.2.5 if at any meeting at which an election of Directors ought to take place the offices of the retiring Directors are not filled, unless it is expressly resolved not to fill such vacancies, the meeting shall stand adjourned and the further provisions of this Memorandum of Incorporation, including clauses 20.4.2 to 20.4.5 (inclusive) will apply *mutatis mutandis* to such adjournment, and if at such adjourned meeting the vacancies are not filled, the retiring Directors, or such of them as have not had their offices filled, shall be deemed to have been re-elected at such adjourned meeting.
- 26.3.3 The Board shall, through its nomination committee if such committee has been constituted in terms of clause 32, provide the Shareholders with a recommendation in the notice of the meeting at which the re-election of a retiring Director is proposed, as to which retiring Directors are eligible for re-election, taking into account that Director's past performance and contribution. Sufficient time shall be allowed between the date of such notice and the date of the general meeting or annual general meeting at which the re-election of the Director is to be proposed to allow nominations to reach the Company's office from any part in the Republic.
- 26.4 Powers of the Directors**
- 26.4.1 The Board has the power to –
- 26.4.1.1 fill any vacancy on the Board on a temporary basis, as set out in section 68(3), provided that such appointment must be confirmed by the Shareholders, in accordance with clause 26.1.2, at the next annual general meeting of the Company, as required in terms of section 70(3)(b)(i); and
- 26.4.1.2 exercise all of the powers and perform any of the functions of the Company, as set out in section 66(1),
- and the powers of the Board in this regard are only limited and restricted as contemplated in this clause 26.4.
- 26.4.2 The Directors may at any time and from time to time by power of attorney appoint any person or persons to be the attorney or attorneys and agent(s) of the Company for such purposes and with such powers, authorities and discretions (not exceeding those vested in or exercisable by the Directors in terms of this Memorandum of Incorporation) and for such period and subject to such conditions as the Directors may from time to time think fit. Any such appointment may, if the Directors think fit, be made in favour of any company, the shareholders,

directors, nominees or managers of any company or firm, or otherwise in favour of any fluctuating body of persons, whether nominated directly or indirectly by the Directors. Any such power of attorney may contain such provisions for the protection or convenience of persons dealing with such attorneys and agents as the Directors think fit. Any such attorneys or agents as aforesaid may be authorised by the Directors to sub-delegate all or any of the powers, authorities and discretions for the time being vested in them. Any reference to a power of attorney herein shall include any other form of delegation including the right to sub-delegate.

- 26.4.3 Save as otherwise expressly provided herein, all cheques, promissory notes, bills of exchange and other negotiable or transferable instruments, and all documents to be executed by the Company, shall be signed, drawn, accepted, endorsed or executed, as the case may be, in such manner as the Directors shall from time to time determine.
- 26.4.4 All acts performed by the Directors or by a committee of Directors or by any person acting as a Director or a member of a committee shall, notwithstanding that it shall afterwards be discovered that there was some defect in the appointment of the Directors or persons acting as aforesaid, or that any of them were disqualified from or had vacated office, be as valid as if every such person had been duly appointed and was qualified and had continued to be a Director or member of such committee.
- 26.4.5 If the number of Directors falls below the minimum number fixed in accordance with this Memorandum of Incorporation, the remaining Directors must as soon as possible and in any event not later than 3 (three) months from the date that the number falls below such minimum, fill the vacancy/ies in accordance with clause 26.4.1.1 or convene a general meeting for the purpose of filling the vacancies, and the failure by the Company to have the minimum number of Directors during the said 3 (three) month period does not limit or negate the authority of the board of Directors or invalidate anything done by the board of Directors while their number is below the minimum number fixed in accordance with this Memorandum of Incorporation.
- 26.4.6 The Directors in office may act notwithstanding any vacancy in their body, but if after the expiry of the 3 (three) month period contemplated in clause 26.4.5, their number remains below the minimum number fixed in accordance with this Memorandum of Incorporation, they may, for as long as their number is reduced below such minimum, act only for the purpose of filling vacancies in their body in terms of section 68(3) or of summoning general meetings of the Company, but not for any other purpose.

- 26.5.2 A Director of the Company may be or become a director or other officer of, or otherwise interested in, any company promoted by the Company or in which the Company may be interested as shareholder or otherwise, provided that the appointment and remuneration in respect of such other office must be determined by a disinterested quorum of Directors.

- 26.5.4 Save where the Directors have obtained the prior approval of the JSE to so propose such a resolution, the proposal of any resolution to Shareholders in terms of sections 20(2) and 20(6) to permit or ratify an act of the Directors that is inconsistent with any limitation or restriction imposed by this Memorandum of Incorporation, or the authority of the Directors to perform such an act on behalf of the Company, is prohibited.

## 20. OPTIONS

- 20.1 An Option –

  - 20.1.2 shall, save to any extent permitted in terms of this Trust Deed, be personal to and only capable of being accepted by the Beneficiary to whom it is granted;
  - 20.1.3 shall be exercised within the relevant period specified in terms of this Deed;

Notwithstanding anything to the contrary contained in this clause 20.1.4 any notice actually received by a Beneficiary shall be an adequate notice for the purposes hereof notwithstanding the fact that it was not sent to or delivered to the said *domicilium* of the Beneficiary;

  - 20.1.8 shall, pursuant to the exercise of an Option, be settled upon a Beneficiary only by way of the delivery of Shares and a Beneficiary shall not be entitled to receive cash in lieu of Shares (it being recorded that, for the purposes of International Financial Reporting Standard 2, the foregoing shall be an equity-settled share-based payment transaction);
  - 20.1.9 shall be awarded on the basis that the number of Scheme Shares to be delivered to a Beneficiary, and the discharge of the Strike Price in respect of such Shares, shall be on a delivery versus payment method in accordance with the provisions of this Trust Deed; and
  - 20.1.10 shall be governed by the provisions of this Trust Deed, to which the Beneficiary shall strictly adhere.

- 20.2 Save to any extent contemplated to the contrary in this Trust Deed, the risk in the Scheme Shares shall pass to the Beneficiary on the exercise of the Option.
- 20.3 Ownership or any other vested rights in and to the Scheme Shares shall only pass to the Beneficiary on delivery in terms of clause 23 and against payment of the Strike Price and fulfilment of any other obligations of the Beneficiary in terms of this Deed.

  - 20.5.2 prior to the exercise of the Option, if the Beneficiary to whom such Option has been granted, is dismissed from employment by a Group Company on grounds of misconduct, poor performance, dishonesty or fraudulent conduct; or
  - 20.5.3 prior to the exercise of the Option, if the Beneficiary to whom such Option has been granted, ceases to be employed by any Group Company for any reason whatsoever, save to any extent expressly contemplated in terms of clause 25 below; or

- 20.6 Neither an Option, nor any rights awarded thereunder may be transferred, ceded, pledged or alienated in any way whatsoever, save as may be expressly permitted in terms of this Trust Deed.

## 21. OPTION EXERCISE

- 21.1 Options forming part of any Employee Allocation shall only be capable of being exercised in terms hereof (during the Exercise Period) on the basis of –
- 21.1.1 25% (twenty-five percent) thereof vesting as at the 2nd (second) anniversary of the Option Date (“**First Vesting Date**”);
  - 21.1.2 25% (twenty-five percent) thereof vesting as at the 3rd (third) anniversary of the Option Date (“**Second Vesting Date**”);

- 21.2 An Option must be exercised during the applicable Exercise Period of such Option (“**Option Exercise Date**”) and such exercise, and the Scheme Shares acquired pursuant to such exercise, shall be governed by the applicable provisions of this Trust Deed. For the avoidance of any doubt, and having regard to the provisions of clauses 20.5.1 and 21.1, the Exercise Period for Options falling due at the First Vesting Date, the Second Vesting Date, the Third Vesting Date and the Fourth Vesting Date (as the case may be) shall be within 30 (thirty) days of each of such First Vesting Date, Second Vesting Date, Third Vesting Date and Fourth Vesting Date (as the case may be).
- 21.3 The Board, in its discretion, may instruct the Trustees to reach more favourable alternative arrangements with Participants or the relevant executor or legal representative in regard to the date or time limits of the lapsing of an Option or the exercising of an Option or the date of payment of the Strike Price (including in respect of any dates or time limits contemplated in clauses 20, 21, 24 or 26 hereof) or the manner for effecting payment thereof.
- 21.4 Failure by a Beneficiary to exercise an Option timeously in accordance with the provisions of this clause 21 shall result in the lapsing of such Option.
- 21.5 Failure by a Beneficiary to comply faithfully and timeously with all his obligations in terms of the Trust Deed shall result in the immediate lapsing of his Options unless the Board instructs the Trustees to the contrary.

## 24. FINANCIAL ASSISTANCE TO BENEFICIARIES

- 24.1 Subject to the provisions of the Act and in amplification of clauses 8.1.14 and 8.1.16, in respect of any Beneficiary (or the relevant executor or legal representative of a Beneficiary’s deceased estate) (“**Borrower**”) who has exercised all or part of his Options in such manner as is contemplated in terms of this Trust Deed, the Trustees (“**Lender**”) shall, in their absolute and unfettered discretion, with the prior written approval of the Board, be entitled to provide financial assistance to the Borrower for the purpose of assisting the Borrower in fulfilling the monetary obligations arising due to the exercise of all or part of his Options in terms of this Trust Deed, which obligations shall include, *inter alia*, the payment of the Strike Price in respect of such Options so exercised and any Beneficiary Taxation (“**the loan**”), subject to the following terms and conditions –
- 24.1.1 the Borrower shall be required to provide the Lender with a deposit equal to at least 10% of the loan value in cash on the applicable Option Exercise Date;
  - 24.1.2 the Borrower shall be required, in a separate agreement, to pledge in *securitatum debiti* such number of Shares (whether or not they are the Scheme Shares to be delivered to the Borrower as contemplated in this

clause 24) as is equal to (or more than) 130% (one hundred and thirty percent) of the loan value, unless the Trustees on reasonable grounds decide otherwise, with the value of such security to be calculated in *mutatis mutandis* the same manner as the Strike Price ("**the security**");

- 24.1.3 to the extent that the value of the security as calculated by the Lender continues to fall below aforementioned percentage in clause 24.1.2 above for a period of at least 5 (five) business days, the Lender shall be entitled to forthwith perfect all or part of the security so as to reduce any outstanding balance in respect the loan and in so doing restore the requisite percentage cover, to the extent additional security is not provided by the Borrower;
- 24.1.4 any outstanding balance in respect of the total amount borrowed by the Borrower from time to time shall attract interest at the South African Revenue Services fringe benefit rate, which shall accrue and be compounded annually in arrears and be payable annually by the Borrower;
- 24.1.5 the capital amount outstanding in respect of the loan, together with all interest accrued thereon, must be paid in full within 3 (three) years of such capital amount having been advanced to the Borrower by the Lender;
- 24.1.6 subject to the provisions of clause 25 and notwithstanding the provisions of clause 24, if the Borrower ceases to be an Employee at any time while any amount (whether capital or interest) in respect of the loan is outstanding, the full amount of the loan plus all interest that accrues thereon shall become due and payable within 7 (seven) days of written notice thereof by the Lender to the Borrower and interest at the prime rate of interest shall be payable on any outstanding amount unless the Lender resolves otherwise. The Lender shall furthermore be entitled forthwith to perfect all or part of the security so as to effect repayment of the full loan amount, including interest that may be outstanding.

Notwithstanding the foregoing, the Board may instruct the Trustees to reach more favourable alternative arrangements with a Borrower, depending on the personal circumstances of such Borrower. Accordingly, the terms and conditions of any financial assistance as granted by the Lender, remain in the Lender's sole discretion (subject to such aforementioned instructions as may be received from the Board).

this Deed may be amended from time to time by written agreement between the Board and the Trustees. For the avoidance of doubt, to the extent that any such amendment relates specifically to matters listed in paragraph 14.1 of Schedule 14 of the JSE Listings Requirements, such amendment shall require the approval of an ordinary resolution to this effect, which resolution shall be approved by not less than a 75% (seventy-five percent) majority of the votes cast in respect of such resolution by all Shareholders present in person or by proxy at the general meeting to approve such resolution and duly authorised to vote in terms of paragraph 14.2 of Schedule 14 of the JSE Listings Requirements.

- 33.2 Subject to clause 33.1, if the implementation of any provision of this Deed is rendered impossible or impracticable by reason of any change in law at any time after the signing of this Deed, the Board shall have the power, with the approval of the Trustees, to amend this Deed in such manner as will result in it being capable of practical implementation in terms of the law then in force so as to result in the Trust, the Group and the Participants enjoying such rights as confer, in the opinion of the Auditors (acting as experts and not as arbitrators and whose determination shall be final and binding) for the time being of the Company, substantially the same degree of benefit on them as would have been enjoyed by them but for such amendments and change in law.

### 36. TERMINATION OF THE TRUST

#### 36.1 The Trustees shall be entitled in their discretion to terminate the Trust –

- 36.1.1 should all Options awarded by it to Employees have been exercised and the Trust has received payment in full of any amounts owed to it by the Participants; or
- 36.1.2 the Board resolves that the Trust shall be terminated; or
- 36.1.3 should the Company, the Trustees and the Participants (if any) who have vested rights in terms of this Deed, agree in writing to terminate the Trust.

- 36.2 Upon termination of the Trust, the Trustees shall be entitled in their discretion to release the assets of the Trust and wind-up the affairs of the Trust and pay over to the Company any surplus funds (after having discharged all liabilities) remaining in the Trust. The provision of this clause 36.2 shall apply *mutatis mutandis* to any Shares held by the Trust upon the termination thereof.

- 36.3 Upon termination of the Trust, the Trustees shall be entitled in their discretion to transfer any income or capital (on terms and conditions to be determined by the Board and the Trustees) of the Trust to the Company.

- 36.4 Should the amount paid by the Trustees to the Company in terms of this clause 36 fall short of any indebtedness of the Trust to the Company and/or its Subsidiaries, the Trustees shall be relieved of all liability for such shortfall, which loss shall be constituted as a loss to be borne by the Company and/or its Subsidiaries.
